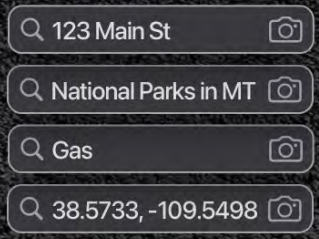
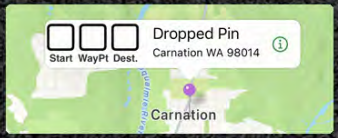
YOUR DESTINATIONS AWAIT, LET'S GO!

Start By Adding Places to the Map Using Any of These 3 Options:

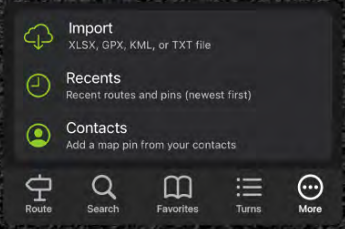
1. Search





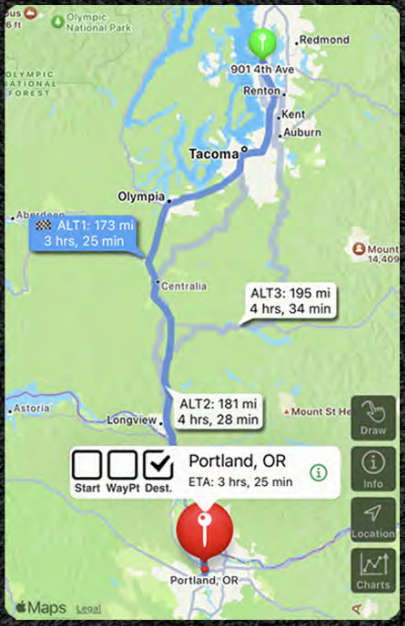
2. Drop a draggable pin (long press on map)

3. Select **More** to import from files or contacts



02 GETTING STARTED

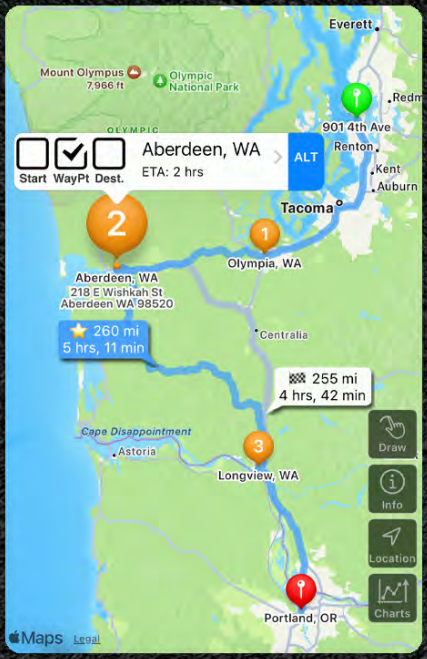
Set a Start and Destination on the Map to Create a Route



Tap a pin's name to show it's details and edit name/color/notes

03 CREATING ROUTES

Add Intermediate Stops By Setting Waypoints



04

SETTING WATPOINTS

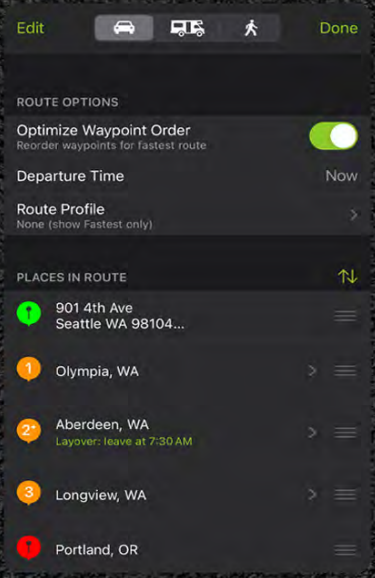
Optionally choose from alternate routes on each leg (location to location) with the ALT button

Change Route Options

Route

Select the **Route** button on the bottom toolbar

Driving, RV or Pedestrian



Optimize Route Order

Customize

Reverse Route

Set a Layover (plus symbol for time added)

Drag Lines to Reorder

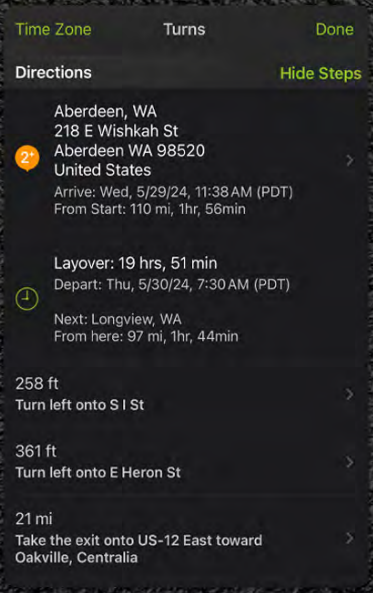
05 Departure and layover times improve estimates of road/weather conditions and travel times

05 CHANGE ROUTE OPTIONS

View Time and Distance to Stops Using the Turn-By-Turn List

Turns

Select the **Turns** button on the bottom toolbar



Show/Hide Steps

Time/Mileage Progress to Stops (also shown on the map pin's detail screen)

Select Step or Leg to Highlight on the Map

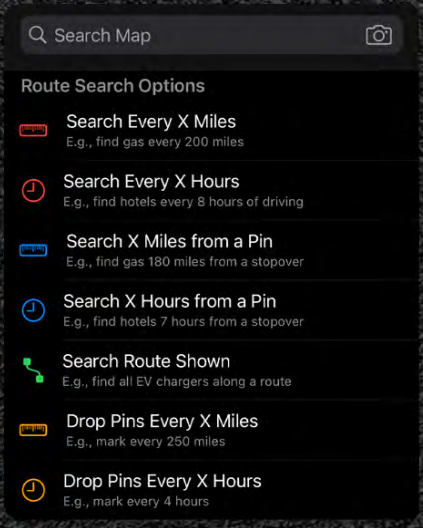
06

TURN-BY-TURN LIST

Search Along a Route

Search

Set route, then select the **Search** button on the bottom toolbar



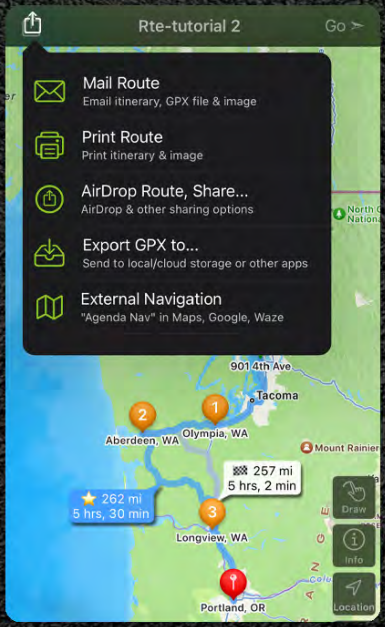
07

SEARCH ROUTE

Search and set incremental stops along a route for gas, charging, hotels, etc.

Share and Export Routes

Select the **Share** button on the top toolbar



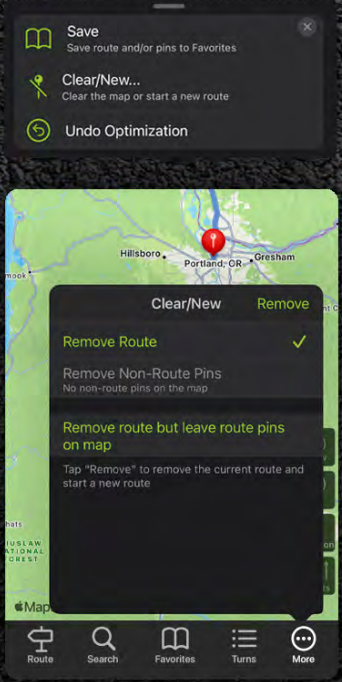
08

SHARE AND EXPORT ROUTES

Save or Start a New Route

More

Select the **More** button on the bottom toolbar

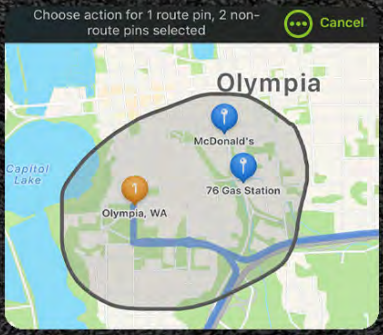


09

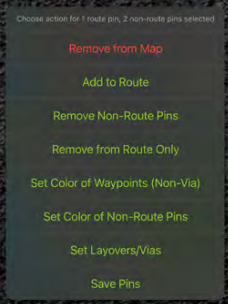
SAVE OR START A NEW ROUTE

Draw on the Map to Perform Actions on Multiple Pins

Select the **Draw** button on the map



Draw around the desired pins, then choose an action from the ⋯ menu in the top right corner.



10

DRAW ON MAP TO PERFORM ACTIONS

Use Charts to Help Plan Your Trip

Select the **Charts** button on the map

Tap along a chart to show that distance/time on the map; see where the sun will set along a route, where to expect bad weather, etc.

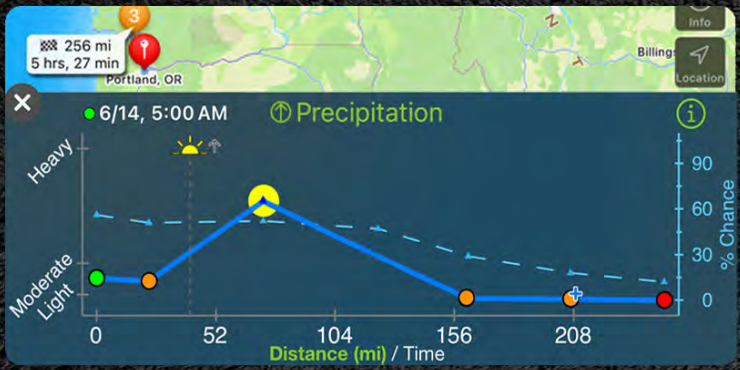
11

USE CHARTS TO HELP PLAN YOUR TRIP

Use Charts to Help Plan Your Trip: A Closer Look

Color Matched Places

More Charts



Stats

Sunrise

Severe Weather Alerts

Route Distance or Time

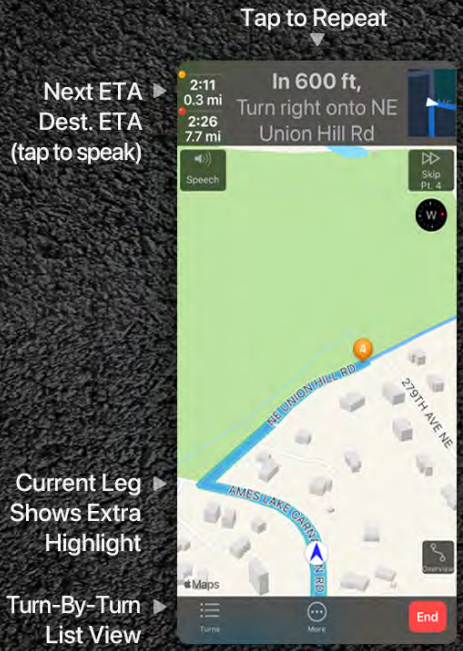
Waypoint with Layover

12

USE CHARTS TO HELP PLAN YOUR TRIP: A CLOSER LOOK

Start or Resume Navigation with "Go"

Go ➢ Select the **Go** button on the top toolbar



13

Severe weather alerts found ahead are shown when navigation begins (US/Canada/EU)

START OR RESUME NAVIGATION
